

## WE WILL DUMP YOU

Buddy, you're a boy with a big job  
Playing with our lives, gonna gut Medicaid  
today  
You lie with a straight face, you big  
disgrace  
Making us sicker all over the place, singin'

We will, we will dump you  
We will, we will dump you

Buddy, you're a rich man, small man  
Selling off our lands, gonna drill, baby, drill  
today  
You got oil on your face, you big disgrace  
New Superfund Sites all over the place

We will, we will dump you, sing it  
We will, we will dump you

Buddy, you're a scared man, masked man  
Raiding summer camps, disappearing our  
folks today  
I don't wanna play nice: abolish ICE  
Or all of us are gonna be paying the price

We will, we will dump you,  
We will, we will dump you,
